STOP THE GROWLER.

The License Commissioners
Have Taken Action in
the Matter.

COMPLAINTS HAVE BEEN MADE.

A Copy of the Commissioners' Resolve
Sent to the Saloonkeepers. It
Calls attention to the Signed
Agreement and Says It
Will Be Enforced.

The license commissioners have taken
the first step to enforce the saloonmen's
agreement that the selling of beer in pails
shall be prohibited.
The commissioners have been receiving
complaints against some of the saloonmen
for violation of their agreement and yester-
day a copy of the resolve of the commis-
sioners in writing to grant fourth
class licenses was sent to all holders of
fourth class license. The resolve simply
says that fourth class licenses are granted
with the understanding and in accordance
with the required agreement of the sa-
loonman that beer should not be sold in
pails and pitchers. This resolve will be
enforced.
The provisions of the fourth-class li-
cense give the holders the right to sell
beer in pails if he so chooses, but it is the
belief that the saloonmen will live up to
their agreement not to sell because of the
future results of their breach of faith.
Investigation today showed that the sa-
loonmen which have broken the agreement
began to honor it after receiving the re-
solve signed by C. W. Dennett.

HOUSE ENTERED.

House on Bracewell Avenue Entered
While the Owner Was Away.

The police were notified Thursday that
Henry Holt's residence on the corner of
Bracewell avenue and Brooklyn street
had been entered. Mr. Holt is a sketch
maker at the Arnold Print works and his
family are stopping at Idlewild. Sunday
he visited them and spent the night there.
Monday morning the neighbors no-
ticed that the front door was open and
they wondered at its being open while
nobody was there. A neighbor went into
the house and was almost choked with
gas and on investigation discovered that
every jet in the house was turned on.
He shut off the gas and later Mr. Holt
was notified. A knife was found in the
house and as yet it is not known whether
anything was stolen or not.

MR. WOODHEAD HOME.

Rev. A. B. Church Took Active Part in
the Toronto Convention.

City Almoner W. H. Woodhead has re-
turned from Toronto, Canada, where he
attended the convention of the societies
of correction and charities. Mr. Wood-
head did not take an active part. Rev. A.
B. Church, the other delegate from this
city, did, and his opinions were given con-
siderable attention. The city of Toronto
treated the delegates very hospitably.
The next convention will be held in New
York city.

St. John's Excursion.

It is expected that the excursion to
Cote's grove tomorrow will be largely at-
tended by the members of the Sunday
school and parish. The children will as-
semble at the parish house at 9 o'clock
and receive their tickets. Provisions for
the common table will be sent there be-
tween 9 and 10 o'clock and the party will
leave at 10 by the electric cars. Dinner
will be served in the grove at 12 for the
children and at 1 o'clock for the adults.
An orchestra of three pieces will play for
dancing during the afternoon. Adults
who cannot leave until afternoon can ob-
tain tickets at the parish house this
evening between 8 and 9 o'clock.

Horse Gets Loose.

This noon W. H. Pritchard's horse got
loose at Ford & Arnold's stables and came
running into Main street. He ran down
the sidewalk in front of Boland's block
and several people had narrow escapes
from being run over. After preambulating
as far as the print works on Marshall
street he ran back to the stable.

THE DOOLEY CLAIM

Lawsonian Park Will be At-
tached Saturday to
Satisfy It.

HITCH PREVENTED IT TODAY

Lawyer Mack Will Place the Attach-
ment and an Injunction if Nec-
essary. Papers All Prepared
But Sheriff Maloney is
Out of the City.

It was all arranged today to attach the
baseball fixtures at Lawsonian park and
prevent the game, but Deputy Sheriff
John E. Moloney was not in the city and
the service of the papers was postponed
until Saturday.
The case is now in the hands of J. H.
Mack for Jack Dooley. It was turned over
to Mr. Mack when Mr. Couch went west.
Mr. Mack is prepared to push Mr. Dooley's
claim which is set at \$350.
The procedure of lawyer and Mr.
Dooley will be to attach the grounds for
the claim and attempt to prevent the use
of them by the persons in possession until
the claim is satisfied. The persons in pos-
session can give a receipt for the amount
of the claim and go on using the grounds.
If this is done and a settlement is not
brought about Mr. Dooley's counsel will
attempt to place an injunction on the
property. If he succeeds in placing an in-
junction, the other parties can do the
same to his client and then neither can
use the grounds until the matter is settled
in court.

IMPORTANT PURCHASE.

Congregational People Buy Valuable
Property Adjoining the Church.

The Congregational church people have
purchased the real estate next the church
owned by Mrs. Gernain, and the prop-
erty of S. W. Brayton, the residence of
Mr. Rising, is held at their option.
The Ladies' Aid society of the church
has assumed the responsibility of the
German property purchase.
A syndicate of the leading men of the
church has agreed to stand behind the
purchase of the S. W. Brayton property,
the figure to be paid being \$4,500.
The object of these purchases is to pre-
vent the building of any business block
adjoining the church, which was possible
as the Gernain property was open to
the market.

THEY TAKE THEIR HOLIDAY.

And Now N. L. Miliard & Co. Want
Some New Help.

The trimming cutters at N. L. Miliard's
are not at work this afternoon, all going
out at noon.
The trouble seems to have been that
the men, about 12 in number had been
promised a half holiday this afternoon.
Certain stock came in just before noon,
and the foreman desired the trimming
cutters to work and give up their holiday.
They couldn't see it that way.
The company feels that the help de-
serted it when their work was pressing,
and proposes now to give new help their
places.
The situation is that the foreman and
men are at variance. The men are hav-
ing a half holiday and the foreman is
hustling for new help.

Simpson Petition Filed.

BY TELEGRAPH.

THE AMERICAN WINS.

Ten Eyck of Worcester Takes the
Grand Prize at Henley,
England, Today.

Henley-on-Thames, July 16.—The third
day of the Henley regatta is favored with
beautiful weather. Light breezes gener-
ally up the course blow from the Bucks
shore. In consequence of the death of
Lord Camoys, late president of this year's
regatta committee, many flags are float-
ing at half mast.
The ninth trial heat, semi-finals, for
the diamond sculls, was won by H. T.
Blackstaffe of the Vesta. Rowing club,
who beat Dr. McDowell of Chicago.
This leaves McDowell out of the finals.
When Blackstaffe beat Dr. McDowell he
broke the Henley record, rowing in mag-
nificent form.
The tenth trial heat in the semi-finals
for the diamond sculls was won by E. H.
Ten Eyck of the Wauchoosett Boat club,
Worcester, Mass., who beat B. H. Howell
of Trinity Hall, Cambridge, but who is an
American. Ten Eyck got away promptly,
rowing easily and when the top of the is-
land was reached he led Howell, but
rowing a stroke of 32 to the minute.
The Massachusetts oarsman led through-
out. Evidently he had Howell's mea-
surement by time. The half mile stake
was reached in three minutes and five
seconds. Ten Eyck was a length ahead,
and though Howell spurred gamely, he
could not overtake the leader. It was a
close race, Ten Eyck winning by a half
length in eight minutes and thirty-six
seconds, which, prior to Blackstaffe's
achievement this morning, was record
time.
The three-quarters stake was reached in

ARBITRATORS' WORK.

Two of Largest Coal Operators in
Pittsburg Head Agreement.

MINERS DOUBTFUL AS TO RESULT.

Commission, However, Satisfied
With Progress Made.

Pittsburg, July 16.—Yesterday was de-
voted to hard work on the part of the
joint arbitration commission in their ef-
forts to secure true uniformity in this
district as suggested by W. P. De Armit-
t, and all express themselves as well
satisfied with the progress made. Two
of the largest operators in the district,
W. P. De Armit and Francis L. Rob-
bins, have consented to head the list,
and the commissioners feel satisfied that
the other operators will soon fall in line.
It is claimed by the miners' officials,
however, that the understanding was
that the agreement meant 50 per cent of
the output of the district, whereas it is
now said to mean 95 per cent of the
operators. They say it will be absolutely
impossible to get 95 per cent of the
operators, as there are a great many
operators mining on a small scale.
President Dolan said that while he would
do all in his power to assist the commis-
sioners in securing the signatures of the
operators to the agreement, he thought
the proposition was a scheme of Presi-
dent De Armit's to keep his men at work
and prolong the strike.
General Little of the Ohio arbitration
board said that every obstacle had been
removed in the way of a settlement
along the lines proposed, and that he
had not heard of any operators who
would not sign.
Commissioner Edward Ridgely and
Horace Caley of Illinois have gone to
Chicago to see Colonel W. P. Rend and
J. W. Ellisworth, and if possible induce
Colonel Rend to return to Pittsburg and
use his influence among the operators to
have the agreement signed.
L. P. McCormack of Indiana, another
of the commissioners, left for Terra
Haute this morning to see J. Smith Tal-
ley to secure his co-operation. Mr. Tal-
ley is a heavy purchaser of Pittsburg
coal.
Last evening the commission sent a
telegram to Senator Mark Hanna asking
him to lend his assistance in having the
agreement adopted.

HOTTEST IN TEN YEARS.

Hyde Park Has Quite a Fire and Calls
For Outside Assistance.
Hyde Park, Mass., July 16.—The hot-
test fire seen in this town for 10 years oc-
curred last evening, causing a loss of
from \$15,000 to \$20,000. The fire started
in the livery stable of J. C. Chaddock
on Nott street in some hay on the main
floor, and as the fire department was
answering a still alarm at the opposite
end of the town at the time, the flames
made good headway before the firemen
got to work upon them. Three alarms
were sounded, and assistance was asked
from Milton, which sent a steamer, hose
and truck, and from Boston, which sent
two steamers and a combination wagon
from the Dorchester station.
In the Chaddock stable there were
some 65 horses and 100 carriages, sleighs,
etc., all the horses being saved, together
with most of the vehicles. The building,
which was owned by William B. Ryan of
Boston, was totally burned. The fire
spread to Isaac L. Ryan's stable adjoining,
and a building occupied by Walter G.
Lugton as a blacksmith shop and by
Noyes & Elliot, carpenters, and soon

WILLIAMSTOWN'S GOOD EXAMPLE.

There are a good many good things
about Williamstown, and many of them
other communities could imitate with
profit. Of the college town's community
spirit have been born results and accom-
plishments that have been of very great
benefit to its people, and such benefits
as North Adams and every other town and
city could have if they would but adopt
the same means and encourage the same
spirit as are used and encouraged by the
village that is called the prize town in
many respects of Northern Berkshire.

The incident that leads us to make this
reference was the second annual meeting
of the Village Improvement society of
Williamstown. In an open park, with
urgent invitation to all citizens to at-
tend and with the village band to add a
dash of inspiration to the occasion, the
good people of Williamstown met to dis-
cuss and plan and organize for the im-
provement of their already beautiful vil-
lage. Officers of the society reported on
the year's work and new officers for the
ensuing year were elected.

The secretary's report showed that con-
siderable had been done during the year
in the way of village improvement. The
society caused several crosswalks to be
laid, had agitated the street lighting pro-
ject until the fire district had taken up the
matter, and the lighting of the streets is
soon to be accomplished, and a handsome
granite watering tab is soon to be set on
Main street as a result of the society's ef-
forts. The report showed that other good
work had also been done, including the
planting of receptacles in different parts
of the village for waste paper and other light
reuse.

But what was more striking as showing
the general interest of all in the improve-
ment of the village was the appointment
of nine "district committees," men and
women sharing alike in the appointment,
Mrs. and Mrs. and Misses being indis-
criminately and willingly sworn into the
good service of making a better William-
stown. College people and towns people
were there, and, as Dr. Bacon, the presi-
dent of the association, said, there was no
ambiguity. It was a democratic con-
gress of a village community.

Such a meeting as that of the William-
stown Village Improvement society does
a community good. It does us over here in
North Adams good to read about it, and
we may profit by the example of our sister
village. The lesson of community spirit
working harmoniously in right channels is
a lesson that cannot be too often taught
nor too often learned. We need that les-
son taught in this city today and every
day. Harmony is better than dissension,
a great work is better than carping
criticism.

BERKSHIRE AND OFFICES.

[From the Westfield Times and News Letter.]

It seems to be characteristic of the
dwellers among the Berkshire hills, of
which the poets sing so much and so
sweetly, to always have an eye out for the
main chance, more especially when there
are any public positions to be filled.
They now have the lieutenant governor,
and ought to be proud of him; the con-
gressman, and he too is about right; the
president of the state senate, who is an-
other good man, and true, and it seems
but yesterday, and scarce so long ago
since the grand old hills were represented
in the national senate, by one of the
nobles of her noble sons. Berkshire is
to be congratulated upon having so many
staunch men, who are capable of filling
every place to which the people are heir.
But be it from us to rob her of one scin-
tilla of the pristine glory, but after
all, it does seem just a bit cheeky on her
part to reach out after the fifth wheel
of the public coach, as she is doing in put-
ting forward Parley A. Russell of Great
Laurington, for counselor. He is un-
doubtedly a good man, but there are
others, and they don't all live in Berks-
hire either. What's the matter of Ed-
itor Gere's man, Daniel H. Newton of
Holyoke? While it isn't always safe or
wise to follow Mr. Gere's lead in politics,
we believe he is right this time. Mr.
Newton we know to be orthodox on all
the public questions of the day. He may
not be able to prove himself a descendant
from the Daniel who once found himself
in a den of lions, but he has been in a
great many tight places during his useful
life, however, and like his namesake of
old, has always pulled through safely and
honorably. Unless the rest of the district
is going to concede everything to Berks-
hire that she asks for, without protest,
we say, give the Paper City a
chance. We know where we affirm, in
regard to Mr. Newton's orthodoxy, for he
was the writer's Sunday school teacher,
years ago, up in the old brick church of
Little Franklin's shire town.

THEY ALL APPROVE.

Since Senator Lawrence made public
his intentions of again being a candidate
for the senate there has been unanimous
approval of his decision in this district
and even beyond it throughout the state.
So excellent a president of the senate as
Mr. Lawrence has been is heartily "wel-
comed back" always, and the press gen-
erally throughout the state has had
complimentary things to say of our Berks-
shire senator. The sentiment for Mr.
Lawrence in his own district is well shown
by the following comment of the Pitts-
field Eagle:

Now that Senator Lawrence has decided
to again be a candidate for the state sen-
ate from this district there will be prob-
ably no excitement in this district. The
fact that through Mr. Lawrence our dis-
trict will no doubt again be able to hold
the presidency of the senate, is a power-
ful argument in favor of our young sen-
ator, for it is seldom honors of the sort
come up Berkshire way, and when they
do come up to hold on to them. Outside
of the honor to the district Mr. Law-
rence really deserves the position he
has attained, and he has reached the pre-
sident's chair because of his known quali-
fications for the place.

Tom Reed has got his back up against
the senate's sugar schedule and favors to
the trust. That back is pretty stiff.
Watch the senate yield to Thomas.

With the city's new sewers a heavy rain
storm does not mean a number of hun-
dreds of dollars of expense. The city is
making sensible and economical expendi-
tures in public works, even if they are
large.

Charles Theodore Russell, brother of
ex-Gov. William E. Russell, has been ap-
pointed by the governor's council as civil
service commissioner. He is made chair-
man of the board. The appointment was
made without a dissenting vote. This
looks like real civil service.

The school census shows North Adams
to have 23,000 inhabitants. Now, Pitts-
field, the question of population is an
open and fair one from now on to 1900.
We will start it by telling you that you
are not in it any longer as being the
largest town in Berkshire.

It is certain that this city was never be-
fore in the time of a very heavy rain
storm so free from inconvenience and
damage to the streets and private prop-
erty as during the recent unprecedented
flood. Not a tittle of the damage was
done that would have been done before
the new sewer system was adopted and
adequate provision made for carrying off
the surface water, which so long and re-
peatedly has done damage in many of our
streets and caused the city heavy expense.
The new sewer system is proving the wis-
dom of its promoters.

THE TRANSCRIPT's efforts in behalf
of an illustrated book, adequately and fully
representing the business enterprise and
the attractions of North Adams, Adams
and Williamstown, are meeting with the
heartiest encouragement in every quarter.
We could not have hoped for a better re-
ception of the project than has been ac-
corded it by all before whom the plan of
the book has been laid. A real interest in
the book now being edited and prepared is
shown by all who have pride in this
community and who would like to have
its enterprise and attractions put before
others beyond this vicinity.

COMMUNICATION.

EDITOR TRANSCRIPT:—The great ben-
efit received from the large expenditure of
money was very perceptible during our
recent heavy rains. The trunk sewers
which were laid last year were adequate
to the occasion and our city suffered less
than most places, although probably no
city or town is more unfavorably situated
or liable to receive heavy damages during
such long continued rains. These sewers
on Main street and those in the south part
of the city were equal to the demand, and
it is safe to say that in all probability a
more severe test will not be made in years.
Reports from all nearby sections confirm
the heavy fall of water and the damages
far exceed that of any previous freshet.
In our own city but slight expenditure of
money will repair all damages. The
heaviest loss fell on the farmers between
our city and Adams.

CURATOR.

A Big Bluff.

The pretense some folks make of keep-
ing a provision market is only a "big
bluff." Do your buying at a real provision
market. Imitations are never as
good as the real thing. Come to us for
your meat and provisions. P. Harrington

HOLDS ITS GROUND.

This is the Testimony From
Everywhere, as Well as
North Adams.

Can this be so? Is it true? Are the
facts garbled? Is the truth distorted?
These are questions which every man and
woman in North Adams suffering the tor-
ture of backache, ask. They read the pub-
lished accounts in newspapers about ac-
cidents which claim to cure it. Whatever
conclusion the reader arrives at touching
the truth of these cures, he can't hedge
or flinch or disprove the following, for it
took place in North Adams and the ex-
periences are those of a representative
citizen:

Mr. Frank Barkley of No. 82 River
street, says: "I was troubled with lame
back and a constant gnawing pain in my
loins for over a year. The soreness seemed
to be over my kidneys. There was not
much decrease to the aching and the
lamefulness was such that it prevented me
from bending forward to pick up anything
from the floor. I was very uncomfortable
and I suffered very much before obtaining
Doan's Kidney Pills at Burlington & Dar-
by's drug store. They soon stopped it
and removed the lameness too. Since
taking them I am quite over the whole of
it. I do not have any dizzy headaches and
I rest well at night. I consider them a val-
uable remedy for troubles of that kind
and you can use my name in recom-
mending Doan's Kidney Pills. They cured me
and I think they will certainly cure
others."

Doan's Kidney Pills are for sale by all
dealers. Price 50 cents or mailed by Post-
er-Milburn Co., Buffalo, N. Y., sole
agents for the United States.
Remember the name Doan's and take
no substitute.

He described the explorations into the Mount where once stood the Temple of Baal and with photographs of and specimens from these ruins, carried his audience back to four thousand years before Christ, and left with them a realistic idea of the work being carried on to corroborate or to correct history.

Tokens of Esteem---To Re-Organize the Fire Department---A Dangerous Clothesline.

A Dangerous Clothesline.

On the curve in the street railroad by Joseph Jerome's house, a short distance north of the Fitchburg road, is a trolley pole which is supported by a wire running from the top to a stump about four feet high some distance back in Mr. Jerome's yard. This wire has been used by the family as a clothesline, where it was low enough to be reached, and it served the purpose well until that part which was attached to the pole slipped down so as to come in contact with the iron arm supporting the trolley wire. This connection, if it did not "rain thunder," set the invisible lightning flowing through the wire and when Mr. Jerome's 12-years-old daughter attempted to remove some things from the wire Wednesday she was instantly knocked down. She was at once taken to the hospital and suffered considerably the remainder of the day and all day Thursday from the effects of the shock. Her hand was also blistered where it touched the wire. After this accident Mrs. Peters, who lives in the same house, went to take in the clothes and she, too, was knocked down, although she did not sustain so severe a shock as did the child. The matter was reported to the company Thursday and Superintendent Neary promptly remedied the trouble.

Tokens of Esteem.

Before his departure for Indian Orchard Rev. Fr. Marcoux received from the people of St. Raphael's parish a gold watch and chain, and from the Franco-American club a golden pen and handsome penholder and a beautiful inkstand. These tokens of esteem were presented shortly before his departure and were highly appreciated by him as evidences of the high regard of those among whom he has so faithfully labored.

To Reorganize.

The board of engineers will meet in the house room this evening to reorganize the fire department. Many of the old members have been invited to be present and invitations to join have been extended to some new men. Music was furnished by the Union Drum corps of Savoy, eight pieces. A J. McCulloch leader. In the morning a game of ball between the Ashfields and a picked up nine resulted in a victory for the Ashfields. The Charlemonet club had promised to come but failed to do so. A parade and review by the four societies was followed by dinner in the basement. Then came more athletic sports, and a tug of war was closely contested between a picked nine from Chesterfield, H. L. Eddy, captain, and a like number from Cummington and Windsor headed by C. M. Drake. This was best three in five and was won by a small margin by Drake's men. A bicycle race with three entries, was also quite close, the first prize being taken by a Lee rider, and was followed by a running race. The last of the field sports was a game of ball, Haydenville vs. Adams, purse \$25, won by the former. A V Stevens served as umpire, also as time keeper in some of the other sports. The grand wind up was a ball in the evening at the town hall, with a large attendance. The heat was intense during the day, but the program was all successfully carried out.
